

## PRIVACY NOTICE FOR SCIENTIFIC RESEARCH

You are participating in scientific research. This privacy notice informs you about the processing of your personal data as part of the research. You have a legal right to receive this information.

### **1. Data controller(s) in the study *Trust within Researcher–Participant Relationships in Forced Migration Research***

The data controller is responsible for the lawful processing of personal data in this research.

The data controller of this research is: University of Jyväskylä, Seminaarinkatu 15, P.O. Box 35, 40014 University of Jyväskylä. Business ID 0245894-7 Data protection officer: tietosuoja@jyu.fi, 040 805 3297.

#### **Person or group responsible for the research**

Prof. Kati Turtiainen  
Professor of Social Work  
Kokkola University Consortium Chydenius  
University of Jyväskylä  
[kati.m.turtiainen@jyu.fi](mailto:kati.m.turtiainen@jyu.fi)  
+358406691955

Areen Nassar, PhD  
Postdoctoral Researcher  
Kokkola University Consortium Chydenius  
University of Jyväskylä  
[areen.h.nassar@jyu.fi](mailto:areen.h.nassar@jyu.fi)  
+358505163335

### **2. Processor(s) of personal data**

A *processor of personal data* refers to a party that processes personal data on behalf of the data controller and according to the data controller's instructions. A data processing agreement must be signed with the processor of personal data. In this research, the processors of personal data are the following:

- Microsoft
- ATLAS.ti

During the implementation of the research, the data controller can also use processors of personal data who cannot be named in advance. Appropriate agreements must always be made with processors. Suitability of the processors for the secure processing of personal data must be assessed before an agreement is made. The data subject will be informed separately about the use of another processor if the change is significant from the data subject's point of view.

To ensure the accuracy of research data, the data controller may submit data for processing (primarily without direct identification data) to a so-called research reviewer or verifier for a defined period when necessary. These reviewers or verifiers work under the supervision of research staff. Data processing agreements are made with them if they receive personal data.

### **3. Other disclosure of personal data during research**

Your personal data will be handled confidentially and will not be disclosed to third parties.

The data controller may disclose information during the research from which you cannot be identified:

Eveliina Heino, PhD, Docent  
University Lecturer of Social Work  
Faculty Social Sciences  
University of Helsinki  
[eveliina.heino@helsinki.fi](mailto:eveliina.heino@helsinki.fi)  
+358503384892

Liselott Sundbäck, PhD  
Postdoctoral Researcher  
Faculty of Human and Social Sciences  
Åbo Akademi University  
[liselott.sundback@abo.fi](mailto:liselott.sundback@abo.fi)  
+358505354248

#### **4. Personal data to be processed in *Trust within Researcher–Participant Relationships in Forced Migration Research***

Your personal data will be processed for the research purpose described in the information letter.

In this research, we will collect the following personal data on you: audio recordings. The collection of data is based on the research plan. Other personal data, such as name, nationality, education, and affiliation, as well as special categories of personal data, such as ethnicity, religion, and health, may be processed if participants voluntarily disclose such data during the interview.

This privacy notice has been posted on the study's website, and the research participant has been provided with a direct link to it. It has also been sent to them via email, as appropriate. Additionally, each interview will begin with a review of the privacy notice, and the participant's oral consent to participate will be documented.

#### **5. The legal basis for processing personal data in scientific research**

The processing of your personal data is necessary for scientific research purposes on the grounds of public interest, in compliance with Section 4, Subsection 3 of the Data Protection Act.

Special categories of personal data are processed for the purpose of scientific research in compliance with Section 6, Subsection 7 of the Data Protection Act.

#### **6. Transfer of data outside the EU/EEA**

In this research, your personal data will not be transferred outside the EU/EEA.

#### **7. Protection of personal data**

The processing of personal data in this study is based on an appropriate research plan, and the study has a designated person in charge. Only personal data necessary for the purpose of the study will be processed as research material.

The personal data of research subjects is only processed in environments and using tools that the data controller has determined to be sufficiently secure for the processing of personal data.

Whenever possible, identifying information is removed from the data as a protective measure (pseudonymisation). Identifiability can then be restored using a code or similar information. During the life cycle of the data, the principle of minimising personal data and the requirement of necessity are taken into consideration.

#### **8. Duration of the processing of personal data**

The research data consist solely of interview data, primarily in the form of audio recordings. The audio recordings collected through Microsoft Teams will be securely stored in the University's internal systems (i.e.,

on the responsible researchers' personal U-drives on their JYU laptops), as well as in cloud storage services, all of which are provided and managed by the University of Jyväskylä. In the case of using a voice recorder device provided by the University of Jyväskylä, the recordings will be stored in the researcher's office storage cabinet until the end of the data anonymization phase.

Audio recordings will be transcribed, and the transcripts will then be minimized and anonymized by the responsible researchers. The audio recordings will be disposed of by the end of the data anonymization phase (estimated by December 2026), which means that any information that could enable personal identification will be securely destroyed.

After the study is finished (estimated by June 2027), the anonymized research data will be archived in JYU's JYX service, from where it may be made available upon request for research and/or teaching purposes, or published openly where appropriate.

## 9. Rights of the data subject

### Right to have data rectified (Article 16, GDPR)

If there are inaccuracies or errors in your personal data processed in the study, you have the right to request their rectification or supplementing.

### Right to have data erased (Article 17, GDPR)

You have the right to request your personal data to be erased in certain situations. However, you do not have the right to erasure if it prevents or significantly complicates the realisation of the purpose of processing in scientific research.

### Right to the restriction of processing (Article 18, GDPR)

You have the right to restrict the processing of your personal data in certain situations, for example, if you deny the accuracy of your personal data.

### Derogation from the rights

Derogation from the aforementioned rights is possible in certain individual situations on the basis of the GDPR and the Finnish Data Protection Act, insofar as the rights prevent or significantly complicate the realisation of scientific or historical research purposes or statistical purposes. The need for derogation must always be assessed separately for each situation. Furthermore, derogation from these rights is possible if the controller demonstrates that it is unable to identify the data subject. As a rule, the rights of the data subject must be fulfilled if the data subject, for the purpose of exercising their rights, provides additional information enabling their identification.

### Automated decision-making

In this study, your personal data will not be used in automated decision-making.

### Implementing the rights of the data subject

If you have questions on the rights of data subjects, please contact the University's data protection officer. All requests concerning the execution of the rights must be submitted to the Registry Office of the University of Jyväskylä. Registry Office and Archive, P.O. Box 35 (C), 40014 University of Jyväskylä, tel. +358 40 805 3472, email: kirjaamo(at)jyu.fi. Street address: Seminaarinkatu 15, Building C (Main Building), floor 1, room C 140.

Reporting actual or suspected data breaches to the University of Jyväskylä: <https://www.jyu.fi/en/report-a-data-security-breach>

You have the right to file a complaint with the supervisory authority of your permanent place of residence or employment or place of the alleged infringement, if you feel that the processing of personal data is in breach of the GDPR (EU 2016/679). In Finland, the national supervisory authority is the Data Protection Ombudsman.
